Investor Presentation

Germany, September 2023

A Transformative Silver-Copper-Manganese Asset

Aftermath
SILVER

Important Information

Cautionary Statement on Forward Looking Information

This presentation is not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or which would require any registration or licensing within such jurisdiction. This presentation does not constitute or form a part of, and should not be construed as an offer, solicitation or invitation to subscribe for, underwrite or otherwise acquire, any securities of Aftermath Silver, nor shall it or any part of it form the basis of or be relied on in connection with any contract or commitment whatsoever.

Certain information in this presentation contains forward-looking statements and forward-looking information within the meaning of applicable securities laws (collectively "forward-looking statements"). All statements, other than statements of historical fact are forward looking statements. Forward-looking statements are based on the beliefs and expectations of Aftermath Silver as well as assumptions made by and information currently available to Aftermath Silver management. Such statements reflect the current risks, uncertainties and assumptions related to certain factors including but not limited to, all costs varying significantly from estimates, production rates varying from estimates, changes in metal markets, changes in equity markets, the proposed use of net proceeds from private placements, availability and costs of financing needed in the future, equipment failure, unexpected geological conditions, imprecision in resource estimates or metal recoveries, ability to complete future drilling programs, drilling program results varying from expectations, delays in obtaining survey results, success of future development initiatives, the completion and implementation of a preliminary economic assessment, pre-feasibility or feasibility studies, competition, operating performance, environmental and safety risks, delays in obtaining or failure to obtain necessary permits and approvals from local authorities, community relations, and other development and operating risks. Should any one or more of these risks or uncertainties materialize, or should any underlying assumptions prove incorrect, actual results may vary materially from those described herein. Although Aftermath Silver believes that assumptions inherent in the forward-looking statements are reasonable, forward-looking statements are not guarantees of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein. For more information the reader is referred to the Company's filings with the Canadian securities regulators for disclosure regarding these and other risk factors, accessible through Aftermath's profile at www.sedar.com. Except as may be required by applicable securities laws, Aftermath Silver disclaims any intent or obligation to update any forward-looking statement.

Although Aftermath Silver has attempted to identify important risks, uncertainties and other factors that could cause actual performance, achievements, actions, events, results or conditions to differ materially from those expressed in or implied by the forward-looking information, there may be other risks, uncertainties and other factors that cause performance, achievements, actions, events, results or conditions to differ from those anticipated, estimated or intended. Unless otherwise indicated, forward-looking statements contained herein are as of the date hereof and Aftermath Silver disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by applicable law.

Cautionary Note About Mineral Resources

This presentation uses the terms measured, indicated and inferred resources as a relative measure of the level of confidence in the Mineral Resource estimate. Readers are cautioned that: (a) Mineral Resources are not economic Mineral Reserves; (b) the economic viability of Mineral Resources that are not Mineral Reserves has not been demonstrated; and (c) it should not be assumed that further work on the stated Mineral Resources will lead to Mineral Reserves that can be mined economically. In addition, Inferred Resources are considered too geologically speculative to have any economic considerations applied to them. It cannot be assumed that all or any part of an Inferred Resource will ever be upgraded to a higher category. Under Canadian rules, estimates of Inferred Resources may not form the basis of feasibility or pre-feasibility studies or economic studies except for certain preliminary economic assessments.

Mineral Resources

The Mineral Resource estimate for Berenguela in this presentation & the QA/QC review and data verification was completed by Ms Dinara Nussipakynova, P.Geo., Principal Geologist with AMC who is the QP for the purpose of NI 43-101 for all technical information pertaining to the current Mineral Resource. Further details supporting the geological model, estimation procedure and metallurgical testwork are available in the technical report (the "Berenguela Technical Report") on the Berenguela Silver-Copper-Manganese Project, located in Peru ("Berenguela") pursuant to National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101") under the Company's profile on SEDAR.

For full details of the mineral resource estimate for Challacollo see Aftermath NI 43-101 technical report titled "*Challacollo Silver-Gold Mineral Resource Estimate*" By Qualified Persons J.M. Shannon, (P.Geo), D. Nussipakynova (P.Geo), S. Alvarado (Chilean Mining Commission), B. Mulvihill (MAusIMM CP Met) dated February 5, 2021, with an effective date December 15, 2020, filed on the Aftermath Silver SEDAR profile.

Mineral Resources - Cautionary Note to US Investors

This presentation has been prepared in accordance with the requirements of Canadian National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101") and the Canadian Institute of Mining, Metallurgy and Petroleum Definition Standards, which differ from the requirements of U.S. securities laws. NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. Canadian public disclosure standards, including NI 43-101, differ significantly from the requirements of the United States Securities and Exchange Commission (the "SEC"), and information concerning mineralization, deposits, mineral reserve and resource information contained or referred to herein may not be comparable to similar information disclosed by U.S. companies.

Qualified Person

Michael Parker, FAusIMM,, is a non-independent qualified person, as defined by NI 43-101. Mr. Parker has reviewed the technical content of this Presentation and consents to the information provided in the form and context in which it appears.

Two Precious & Critical Metals Assets

*"Aftermath Silver is not only underpinned by extensive silver resources that provide investors with compelling leverage but also provides significant exposure to **both copper and manganese.**"*

Michael Williams, Executive Chairman

Berenguela, Peru

Substantial silver, copper & manganese resource

Conceptual open pit mine

Close proximity to rail, power, skilled workforce & roads

Challacollo, Chile

NI43-101 resource, open to expansion

Conceptual open pit mine

Proximal to roads and power grid

Where Are We Operating?

Berenguela*:
101Moz Ag + 589Mlbs Cu in M&I
39M oz Ag + 204Mlbs Cu in Inferred

Challacollo¹:
35M oz Ag + 58K oz Au in Indicated
11M oz Ag + 15K oz Au in Inferred

* See technical details & assumptions on slide 13

¹ See technical details & assumptions on slide 27

Key People

Aftermath's highly experienced management team has extensive global resource-sector experience -in both the junior and major companies- and has been involved **in >\$1B of equity financing transactions** for juniors, multiple M&A transactions and multiple gold & base metal discoveries.

Michael Williams
Exec. Chairman & Director

Extensive experience in marketing, M&A and equity transactions. Executive manager, sold Underworld Resources for \$138-million to Kinross in 2010.

Ralph Rushton
President & Director

Geologist with extensive mining and exploration experience. 20 years' experience marketing and financing junior resource companies.

Michael Parker
COO & Director

Geologist with extensive mining and exploration experience. Former country manager DRC & Peru for First Quantum. Fluent Spanish, French & English. Extensive ESG and community relations experience.

Keenan Hohol
Director

Former general counsel Pan American Silver. Experience in corporate governance, securities law and M&A transactions. Also director of Genesis Metals.

David Terry
Director

Experience exploration geologist. CEO & Director Genesis Metals. Former Director of Great Bear acquired for almost \$2B by Kinross in 2022.

Jeff Sundar
Capital Markets

Over 20 years mining capital markets. Director of Northern Empire Resources for \$117 million. Former Director of Underworld Resources acquired for \$138 million.

Victor Grande
VP Sustainability & Community Relations

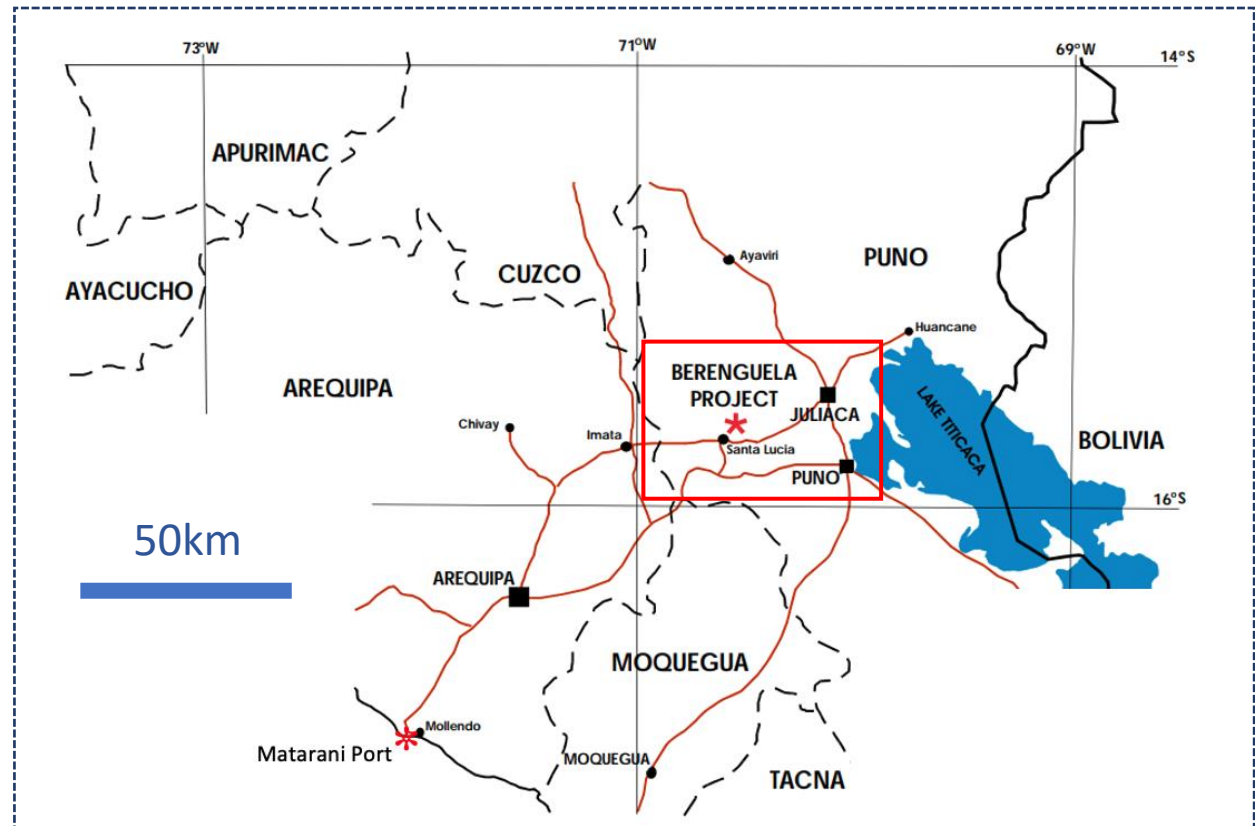

Former World Bank social development specialist. 20 years' experience social and environmental sustainability. Extensive field experience.

Berenguela, Peru

- >380 drill holes, current NI43-101 resource – geologically de-risked
- Mineralization outcrops at surface
- Metallurgical test work underway to confirm flow sheet for silver doré, copper cathode, manganese sulphate production
- A carbonate replacement deposit
- Substantial manganese
- Metal zonation, particularly Cu, indicates potential unexposed intrusive to east.

Berenguela: Location

An excellent address

- ✓ 50km to Juliaca airport, 200km to Arequipa
- ✓ Road, power, rail within 6km
- ✓ Rail line to Matarani Port (350km)
- ✓ Local town of Santa Lucia has mining history
- ✓ 6,500ha concessions, privately owned land, 4,200m ASL

Santa Lucia: Rail line to Matarani on the Pacific coast

Santa Lucia: Mining, A Traditional Local Industry

Berenguela. One of Latin America's Best Undeveloped Projects

Rail line: Approx. 350km to
Matarani port

Santa Lucia

Limon Verde core
yard

±5km

Historic silver workings

Berenguela: Core & Sample Storage Facility, Arequipa

Drill core & RC chips from 20-years of exploration projects now properly catalogued and stored at Aftermath's warehouse in Arequipa. Approximately 42,650m of RC & DD drilling completed to date at Berenguela.

Berenguela Mineral Resource*

Between 2004 to 2020, 291 RC and 32 diamond drill holes totalling approximately 36,473 m in length were drilled on the property. Aftermath completed 63 diamond core holes up to May 17, 2022 (6,170m) which are included in the current resource.

Classification	Tonnes (Mt)	Ag (g/t)	Mn (%)	Cu (%)	Zn (%)	Ag (Moz)	Mn Mt	Cu Mlb	Zn Mlb
Measured	6.152	101	8.89	0.85	0.30	20.0	0.55	115.3	41.2
Indicated	34.024	74	5.60	0.63	0.34	81.2	1.90	473.7	258.1
M + I	40.176	78	6.10	0.67	0.34	101.2	2.45	589.0	299.3
Inferred	22.287	54	3.57	0.42	0.25	38.8	0.8	204.3	122.8

- CIM Definition Standards (2014) were used for reporting the Mineral Resources.
- The effective date of the estimate is 30 March 2023
- The Qualified Person is Dinara Nussipakynova, P.Geo., of AMC Mining Consultants (Canada) Ltd.
- Mineral Resources are constrained by an optimized pit shell using the assumptions in Table 2
- No dilution or mining recovery applied.
- Silver equivalency (AgEq) formula is $AgEq = Ag + Cu\% * 121.905 + Mn\% * 22.809 + Zn\% * 41.463$ based on the parameters in Table 2.
- Cut-off grade is 80g/t AgEq
- Bulk density used was estimated and variable. but averaged 2.30 tonnes/m³ for mineralized material and 2.25 tonnes/m³ for waste.
- Drilling results up to 13 October 2022.
- Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.
- The numbers may not compute exactly due to rounding.
- Mineral Resources are depleted for historic mined out material.
- The relative value in the Mineral Resource by metal is as follows, Ag=26% Cu=26%, Mn=44%, Zn=4%

Assumptions for pit optimization

Activity	Items	Unit	Value
Mining	Mining (all types)	\$/t material	2.25
	Pit slopes	degrees	45
Processing	Processing - Cost	\$/t ROM	41.0
	Processing rate	Mtpa	2.5
	Process Recoveries - Ag	%	81.0
	Process Recoveries - Cu	%	81.0
	Process Recoveries - Zn	%	76.0
Metal Prices	Process Recoveries - Mn	%	81.0
	Ag	\$/oz	22.50
	Cu	\$/lb	4.00
	MnSO4 (Agri-MnSO4)	\$/t	530
Other costs	Zn	\$/lb	1.45
	Admin and Support (G&A)	\$/t ROM	4.0
	Land Freight	\$/t Product	30.0
	Port Charges	\$/t Product	20.0
	Marketing	% of Revenue	0.50%
Other	Royalty – Silver Standard	% of Revenue	1.00%
	Royalty – VDM Partners	% of Cu revenue	2.00%
	Conversion	Mn:MnSO4 %	32

Mineral Resources

The Mineral Resource estimate for Berenguela in this presentation & the QA/QC review and data verification was completed by Ms Dinara Nussipakynova, P.Geo., Principal Geologist with AMC who is the QP for the purpose of NI 43-101 for all technical information pertaining to the current Mineral Resource. Further details supporting the geological model, estimation procedure and metallurgical testwork are available in the technical report (the "Berenguela Technical Report") on the Berenguela Silver-Copper-Manganese Project, located in Peru ("Berenguela") pursuant to National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101") under the Company's profile on SEDAR.

Berenguela Cross Section

These historical drill intercepts for the Berenguela project were taken from the 2021 NI 43-101 Technical Report on the Berenguela property titled "Berenguela Silver-Copper-Manganese Property Update" filed on SEDAR on February 25, 2021, authored by independent QP's J.M. Shannon P.Geo, M.A. Batelochi MAusIMM (CP), and G.S. Lane FAusIMM, and has an effective date of February 18, 2021, filed on the Aftermath Silver SEDAR profile.

The reader is cautioned that these are historical drill intercepts and as such cannot be relied upon, although Aftermath believes the historical work to have been completed to a high standard. Aftermath is currently drilling at Berenguela to verify a selection of the historic drill holes completed at Berenguela.

Hole #	From	To	Intercept (m)	Ag ppm	Cu %	Mn %

Mineralization in Drill Core

Green copper minerals in black manganese oxides

A carbonate-replacement deposit

Simplified Berenguela Process Route

Berenguela Timeline

Objective: production of silver metal, copper, manganese sulphate and zinc metal.

Berenguela Community Information Meeting

Challacollo -Large Chilean silver deposit

- Silver-gold epithermal vein/breccia system.
- Conceptual open pit.
- Open down dip and along strike.
- Recently completed Mineral Resource estimate.
- Grid power 12km north & 30km south.
- 12l/s water extraction rights.
- 30km off the Pan American highway at 1,500m.

Challacollo Current Mineral Resource *Dec. 2020*

Classification	Material Type	Tonnes (Kt)	Silver (g/t)	Gold (g/t)	Silver (Koz)	Gold (Koz)
Indicated	Open Pit	5,597	170	0.27	30,639	49
	Underground	1,043	134	0.29	4,510	10
	TOTAL	6,640	165	0.27	35,150	58
Inferred	Open Pit	2,360	117	0.15	8,912	11
	Underground	443	157	0.26	2,232	4
	TOTAL	2,803	124	0.17	11,144	15

For full details see NI 43-101 technical report titled "Challacollo Silver-Gold Mineral Resource Estimate" By Qualified Persons J.M. Shannon, (P.Geo), D. Nussipakynova (P.Geo), S. Alvarado (Chilean Mining Commission), B. Mulvihill (MAusIMM CP Met) dated February 5, 2021, with an effective date December 15, 2020, filed on the Aftermath Silver SEDAR profile.

Notes on the Challacollo Mineral Resource Estimate

- CIM Definition Standards (2014) were used for reporting the Mineral Resources.
- The effective date of the estimate is 30 November 2020.
- The Qualified Person is Dinara Nussipakynova, P.Geo., of AMC Mining Consultants (Canada) Ltd.
- Mineral Resources are constrained by an optimized pit shell at a long-term metal price of US\$20/oz Ag with recovery of 92% Ag and metal price of US\$1,400/oz Au with recovery of 75%.
- Silver equivalency formula is $AgEq (g/t) = Ag (g/t) + 57.065 * Au (g/t)$.
- The open pit mineral resources are based on a pit optimization using the following assumptions:
 - Plant feed mining costs of US\$3.5/t and waste mining cost of \$2.5/t.
 - Processing costs of US\$17/t and General and Administration costs of \$2.5/t.
 - Edge dilution of 7.5% and 100% mining recovery.
 - 45-degree slope angles
 - Cut-off grade is 35 g/t AgEq g/t.
- The underground mineral resources are reported within Datamine MSO stopes based on the following assumptions:
 - Mining costs of US\$35/t.
 - Processing costs of US\$17/t and General and Administration costs of US\$2.5/t.
 - Minimum width of 2.5 m
 - No dilution or mining recovery.
 - Cut-off grade is 93 AgEq g/t
- Bulk density used was 2.47 t/m³
- Drilling results up to 31 December 2016.
- Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.
- The numbers may not compute exactly due to rounding.
- Mineral Resources are depleted for historic mined out material.

Catalysts for Unlocking Value

- Positive metallurgical test work on Berenguela mineralization demonstrating production of Ag, Cu & a commercial Mn product
- Berenguela Preliminary Economic Assessment - 2024
- Additional exploration success at Berenguela and Challacollo
- Continued demand for commodities

Aftermath Silver

- Berenguela is one of Latin America's premier undeveloped mining projects
- Leverage to silver, copper and manganese
- Both projects are potentially open pittable
- Potential to produce battery grade MnSO_4 from Berenguela

TSX.V:AAG - OTCQX:AAGFF - FRA:FLM1
